

# enhanced line powered amplifier with automatic balance

# TurboAmp MODEL SB21-K2

## Features

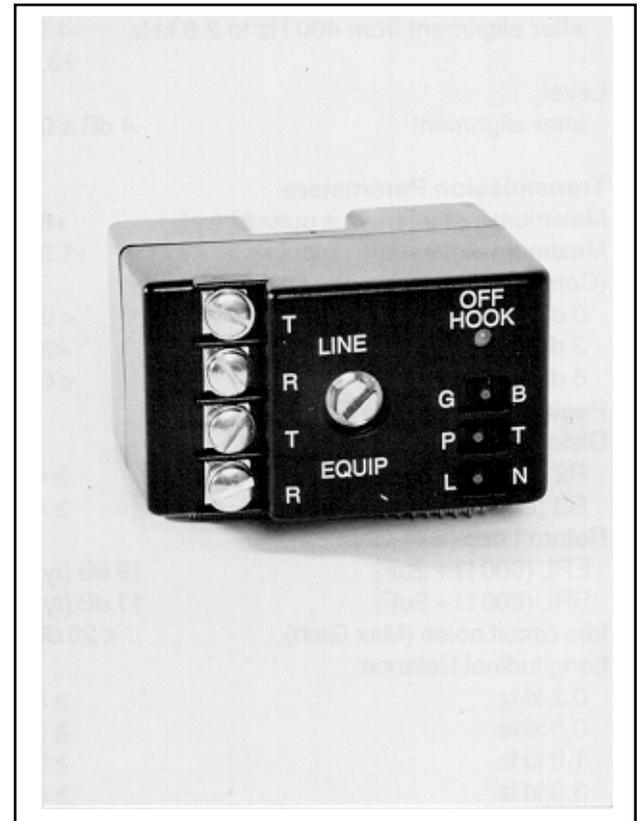

- Automatic Gain / Equalization Alignment
- Stored Gain Settings
- "OFF HOOK" Indicator
- Input Impedance Switch Selectable to "TRUNK" (600 /PBX/MODEM) or "PHONE"
- Equalizes up to 9 dB (at 1 kHz) of 26 ga to 22 ga loaded or non-loaded cable
- Automatic Level Control (ALC)
- -40 to +70°C Operating Temperature Range

## Description

The Model SB21-K2 is Wilcom's newest member of the TurboAmp™ Family of enhanced line powered amplifiers. This very small repeater, which installs in a network interface device at the customer site, compensates for 2-wire POTS and special service circuits. It is estimated that 500,000 new 2-wire special service lines are installed each year in the U.S. The SB21-K2 lowers the cost of provisioning these circuits and improves their performance. On most loops, the SB21-K2 will also improve modem and fax performance. Additionally, POTS lines will have better voice performance if an SB21-K2 is used.

At its core the SB21-K2 is an electronic hybrid voice-frequency repeater. Enhanced features include automatic gain/equalization on both the cable and equipment ports, automatic balance on the cable side, and selectable fixed impedances on the equipment side.

The SB21-K2 is applicable for 2-wire POTS and most special service circuits requiring transmission treat-

ment, including Centrex, PBX-CO trunks, WATS lines, and analog data lines. It passes Caller ID signals and it is compatible with custom calling services and Mechanized Loop Testing (MLT) systems.

The SB21-K2 is particularly well suited for improving high speed modem (V.34) performance. By reducing Echo Return Loss found on poor quality telephone lines, high speed data transmissions are significantly improved.

By using state-of-the-art application specific integrated circuit (ASIC) technology in its design, the SB21-K2 measures just 2.0" x 2.5" x 1.5" (HWD). The unit's compact size makes it small enough to be mounted in a Network Interface Box, such as the KEPTEL™ SNI-4600 or TII™ 3500 BNIB. The SB21-K2 can also be used with one of Wilcom's TurboAmp Mounting Brackets (e.g. MM1, MM3, MM4, MM5). The SB21-K2's simple design allows for ease in installation and setup, reducing both time and labor costs.

# Specifications

## Gain/Equalization Parameters

Maximum 1 kHz cable Loss 9 dB (15 kft. max, 26 ga)  
 (18 kft. max, 22, 24 ga)  
 (6 kft. max bridge tap)

Slope Loss relative to 1 kHz  
 after alignment from 400 Hz to 2.8 kHz -1.0 dB/  
 ±3.0 dB

Level  
 after alignment -4 dB ± 0.5 dB

## Transmission Parameters

Maximum instantaneous output level +6 dBm

Maximum continuous output level +1.5 dBm

(Compression Automatic Level Control)

0 dBm output < 0.1 dB

3 dBm output < 3.0 dB

6 dBm output < 5.0 dB

Peak-to-Average (P/AR) 97

Distortion (non-linear 4-tone):

R2 (second) 43 dB

R3 (third) 44 dB

Return Loss (with Gain)

ERL (600 + 2uF) 19 dB (typical)

SRL (600 + 2uF) 11 dB (typical)

Idle circuit noise (Max Gain) 20 dBmC

Longitudinal Balance:

0.2 kHz 58 dB

0.5 kHz 58 dB

1.0 kHz 58 dB

3.0 kHz 58 dB

Crosstalk (between adjacent units) 75 dB

Lightning immunity 10/1000 µs

200 A, 1000 V

Power Cross meets requirements in

Bellcore Publication TR-TSY-000007

## Power

Required Current 15 mA min

Power Dissipation 70 mW (typical)

DC Resistance 40 (typical)

## Environment

Temperature @ (5 to 95% humidity)

Operating -40°C to +70°C

Storage -40°C to +70°C

## Physical

Dimensions (HWD) 2.0 in. x 2.5 in. x 1.5 in.

Weight 3.6 oz.

Mounting mounts in a

KEPTEL SNI-4600 or TII 3500

Network Interface Box, or with one of

Wilcom's TurboAmp Mountings

## Certification

FCC Part 68 Registered

UL and CUL Listed

Patent Numbers: 4,961,218

5,504,811

## Warranty

The Wilcom SB21-K2 is warranted against failure for a period of five years if normal usage is observed.

## Ordering Information

### Basic:

Product	CLEI Code	Part Number
SB21-K2	VRA1AAAAAA	30211004

### TurboAmp Mountings:

Product	Part Number
MM1A Hanger Screw (Box of 50)	20028229
MM1B 4600 Mounting Stud (Box of 50)	20028448
MM3 Multi-Unit Mounting Bracket	20028346
MM4 Multi-Unit Mounting Bracket	20028451
MM5 Multi-Unit Mounting Bracket	20028178
